FIELD FORMULA

DUPONT STOCK CODE F7996

The following is a mix formula created as an alternate choice for the few options with Chrysler code "PEL", DuPont # F7996.

4530S	30.0
885J	60.0
886J	64.5
1002S	71.5
1003S	71.9
62320F	205.7
62330F	395.6

This formula yields a 15.1 ounce total mix.

It has created a bumper panel match for a 2001 Chrysler Concord LX.

It is NOT too red, and is NOT too dark; it has that orange-yellow look like ALL "PEL" cars have.

KLINER'S – KEEPING YOU INFORMED

ALLENTOWN	1-610-433-3203	HAZLETON	1-570-454-7616
