

# GENERAL MOTORS

## LABEL BULLETIN

In the past, GM colors have been identified with a WA# and a 2 digit numeric code. Beginning on 2010 model year vehicles, GM has replaced the 2 digit codes with a 3 digit Alpha Code. The new Alpha Codes will be used in conjunction with the WA# for all new and some carry over colors.

Below are codes for 2010 and 2011 model years. More 3 digit codes will be added as additional information is received. Please reference your 2010 chipbook for specific models used on each color.

WA#	2 DIGIT	NEW	COLOR NAME
WA238L	71U	GGE	Super Red 2c
WA301N	80	GAQ	Red Jewel P.M.2c
