New Factory Pack Basecoat Colors

There are two new factory package basecoat colors added to the ChromaBase® offering.

These colors will provide an excellent color match for new OEM colors now being produced by General Motors and Honda.

ColorNet® will not provide a mixing formula that will deliver a good color match on these codes.

- 823527K New Umber is used to match code YR580M on the 2009/2010 Honda Accord and Crosstour models.
- 818168K Paragon Bronze is used to match code 644R on the new 2010/2011 Buick Lucerne and Cadillac CTS, DTS and STS models.
