

Last Update for ChromaPremier® and ChromaBase® Microfiche Now Available

Microfiche updates for ChromaPremier® and ChromaBase® are now available for order through our microfiche supplier, Info Access.

THIS WILL BE THE LAST EDITION OF THE CHROMAPREMIER® AND CHROMABASE® MICROFICHE PRODUCED. After this edition, we will no longer support formula retrieval via microfiche. This is based on the fact that microfiche technology has become outdated and it is becoming increasingly difficult and costly to produce. The existing inventory of ChromaPremier® and ChromaBase® microfiche will remain available until October 1, 2010. After that date, microfiche will no longer be offered.

Note that for the past several years DuPont has been the only major Refinish paint company to support formula retrieval via microfiche.
