

3M

3M Purple Hookit™ line to replace Imperial Hookit™ II – December 31, 2010

To our valued customers:

In 2008, 3M introduced the high performance 3M Purple Clean Sanding Disc (Purple CSD) with Hookit™ attachment as part of a new top tier abrasive line (Purple Hookit™). Given the improved performance features offered by Purple Hookit products over the existing Imperial Hookit™ II abrasives 3M will phase out Imperial Hookit™ II abrasives effective December 31, 2010. After that date any remaining product left in the market will be on an as supplies last basis.

Performance Benefits of this change to the shop:

- Faster Cutting
- Less Loading
- Longer Disc Life
- Improved Dust Extraction
- Higher Technician Productivity
- Ultimately, Greater Profitability To The Shop
