

2010 Chevrolet Equinox/GMC Terrain Paint Code Improperly Labeled

2010 Chevrolet Equinox/GMC Terrain Tagged as 431P, but should be 573Q

It has been confirmed that there is an incorrect paint code listed on some of the 2010 Chevrolet Equinox and GMC Terrain vehicles. For these vehicles, the paint tag lists paint code 431P/66 (Sonoma Red Jewel Effect), but the correct paint code should actually be 573Q/13/GIS (Merlot Jewel Effect).

If you have a 2010 Equinox or 2010 Terrain to be repaired please make sure to use the correct color.
