

July 02, 2010

To Our Valued Customers:

SK Hand Tool Corporation has filed for bankruptcy with the Northern District of Illinois United States Court, case number 10□28882. In order to support our customers, Kline's will accept returns of any NEW SK product in resalable condition purchased from Kline's within the last 90 days. However, at this time, Kline's will not be accepting returns of any defective SK merchandise or SK items due to the fact that our distributors are not accepting them from us.

Currently, SK Hand Tools is negotiating with an interested party to continue the product line. Along with you, our customers, Kline's has been a strong and loyal supporter of SK Hand Tools for a great number of years. We hope that a quick and satisfactory solution materializes for the SK brand so we can resume our normal sale and return policies of SK product. We will continually update you on SK and what is happening as more information becomes available to our organization.

Thank you for your understanding concerning the current status of this matter.
