

SEC Toner Usage Announcement

In order to maintain color accuracy for some new and exotic OEM manufacturer colors, it has become necessary to use some of the Sikkens Special effect colors as a toner in the formulas.

In our continuing effort to maintain a complete range of colors for our customers, the need to add these SEC colors to current formulations has become apparent.

Below are the existing Sikkens Autobase Plus colors available that may appear in some color formulations on Mixit. Please make sure that when a customer sees the "CF" toner number in a formula he understands that these SEC colors are in fact what he needs.

SAP #	Toner	Description
388982	CF334	SEC 2433 Magenta to Gold
388980	CF000	SEC 2343 Red to Gold
388981	CF080	SEC Gold to Silver
388987	CF060	SEC Silver to Green
388986	CF190	SEC 5673 Green to Purple
388985	CF230	SEC 6723 Cyan to Purple
388984	CF280	SEC 6233 Blue to Red
