

Supply of ChromaClear 7900S in Gallons **Extended To June 30, 2007**

This bulletin is to announce the continuation in supply of DuPont ChromaClear 7900S in gallons to June 30, 2007. The continuation will allow more time to convert your shop from this offering to the ChromaClear 7779S or Multi-Mix Of 7779S with HC-7776S.

The activators 7975S, 7985S, and 7995S packed in quart size will also be extended to June 30, 2007 in support of the continued supply of the clearcoat in gallons.

Please contact your Kline's Auto, Inc. representative to discuss placing orders for the 7900S product offering as well as to help you plan a strategy to convert your shop from the 7900S offering to the new replacement products.
