

NEW HARDENER ANNOUNCEMENT DH59 Slow Hardener

(National Rule Compliant)

Number: RMBUL2110-E

As the R-M® Brand Management Team continues its quest to be the dominant leader in the area of Value and Versatility, we are pleased to introduce a great new hardener that is just in time for the summer weather and for use with the very popular Power Fill™ Primers.

Product #	Description	Size
DH59	Slow Hardener	Quart

The DP Power Fill 2K Primers are fast-curing, easy-sanding primers that provide ease of handling from mixing to spraying to sanding. They are fast in air dry applications and deliver an excellent result when baked.

DH 59 can be substituted for DH 55 or DH57 with all mix ratios in current applications providing the best primer system for any Diamont paint job. DH59 completes the hardener package for use with the Power Fill 2K Primers.

Please see your Technical Sheets for more information.
