

INTRODUCING!!!!

Sikkens Medium Activator

Item Number 391988

Sikkens Medium Activator has been developed to even further enhance the performance of the Autoclear III system! Sikkens Autoclear III has proven in the market to be the leading clearcoat in the refinish industry. With the addition of Medium Activator, this proven performer just got better.

Sikkens Medium Activator will completely replace item number 385065 Production Activator in the Autoclear III system. As current inventories of Production Activator are depleted, the new Medium Activator will be a direct replacement.

With the new Sikkens Medium Activator you will see dramatic improvements in the Autoclear III system while at the same time maintaining all the speed and productivity our customers have come to expect from the current Production Activator!

What you will see:

- Improved gloss direct from bake
- Improved Application
- Smoother clearcoat film
- Improved overnight gloss

Activator Medium is a direct replacement for Production Activator

ALL TECHNICAL RECOMMENDATIONS AND TDS INFORMATION REMAIN UNCHANGED.
