

New Glasurit Technical Hotline

Glasurit® Brand Management is pleased to introduce the new Glasurit Technical Hotline for all its users:

1-800-998-2273 (1-800-998-BASF)

This hotline is being introduced as a special service to Glasurit users to ensure that you receive prompt attention and technical expertise.

Benefits of the new hotline include:

- the most current technical information associated with Glasurit products
- the latest tech tips
- insight on new products
- historical information on products
- how to address issues with any application processes
- curing recommendations
- cleaning techniques
- mixing recommendations based on weather conditions
- trouble shooting suggestions
- tinting advice
- finding color formulas
- the latest up-to-date color information

Glasurit Brand Management encourages Glasurit users to make good use of this resource, which can help you save time and money.
