

STANDOX 2K PLASTIC CLEAR SATIN GLOSS (12227) REINTRODUCTION

Please note that

Standex 2K Plastic Clear Satin Gloss 12227

will remain available in our product range. Initially the plan was to replace it with Standocryl® 2K Matt Clear 007. However, the continued demand and steady sales of 12227 has made us re-evaluate the need for this product.

We will soon re-issue the TDS 569 and the appropriate MSDS to be posted at www.standona.com. We will also check the product information in Standox Univers®.

Please feel free to contact Standox Product Management at 1-800-551-9296 or your local Standox brand specialist for additional information.

Regards
Your Standox Team
