

VOLVO TRUCKS NORTH AMERICA CONVERTS NEW RIVER VALLEY PLANT TO DUPONT™ IMRON® ELITE

We are pleased to announce that Volvo Trucks North America completed conversion of its New River Valley, VA production plant to DuPont™ Imron® Elite on January 1st, 2007. The conversion gives you a tremendous competitive advantage due to Imron® Elite's repair-in-kind benefit and trusted color match. Imron® Elite makes it faster and easier for you to recreate an exceptional factory finish when repairing Volvo and Mack trucks.

Truck Brand	Plant Location	Material Prior to Conversion	Material Conversion Date	Material After Conversion
Volvo / Mack	New River Valley VA	Imron® 5000™ & 6000™	Jan-07	Imron® Elite SS/BC

CONVERSION AND COLOUR INFORMATION

Volvo models converted to Imron® Elite: VHD, VNM 200, VNL 300, VT 800, VNL 430, VNL 630, VNL 670, VNL 730, VT 830, VNL 780, VT 880

Mack models converted to Imron® Elite: Pinnacle, CX, CH

NOTE: The colour code on Volvo and Mack models produced at the New River Valley plant is located on the B-Pillar on the driver's side door.

Important repair information for Mack and Volvo trucks produced at the New River Valley plant:

Single stage products can be used to repair solid colors only

Basecoat / Clear coat products can be used to repair solid, metallic or pearlescent colors

When you choose Imron® Elite, you get more than paint. You get the industry benchmark in color, appearance and productivity. While some manufacturers make similar claims for their finishing products, only DuPont™ Imron® Elite has a proven history of durability, high quality and innovation.
