# Sketch and send us a layout of your shop floorplan!

Indicate the sections that you would like to enclose. Note dimensions to the nearest foot (exact scale drawing not necessary).

Show or note the following:

- Overall room dimensions
- Layout of desired enclosure(s)
- Required access points in Partitions
- Height to bar joists or other mounting points
- Major overhead obstructions and heights

*(We will gladly review blueprints or sketches on separate sheets of paper)*

A large grid for sketching a shop floorplan. The grid is composed of small squares, approximately 1 inch by 1 inch, and covers most of the page area below the instructions.

*(If not included in your transmittal documents, please complete the following so we can contact you!)*
