Autobase Plus Jet Black

Akzo Nobel Car refinishes has developed a new Jet Black ready mix color to meet demands for a very deep black. This new material will be a ready mix color and will not be used as a toner in color formulations.

When using Autobase Plus Jet Black, no additional mixing will be required. All the shop will need to do is reduce the paint and apply. This new color will consistently maintain that "Mile Deep" black appearance many of our customers require.

A few benefits of this new material are:

- Very Jet Black Appearance
- Easy Application
- No Formula Required
- Extremely Good Leveling And Flow

Mixing Ratio:

100 parts Autobase Jet Black
50-80 parts by volume High Performance Reducer

390943 Autobase Plus Jet Black Quart
