Introducing Autosurfacers Rapid

Sikkens is adding Autosurfacers Rapid to its assortment. The national rule-compliant, isocyanate free surfacer will help body shops shorten job preparation times through its unique characteristics and give them more control over their repair processes.

This is achieved through extremely fast drying times, both air-dry and bake. Additionally, Autosurfacers Rapid offers advanced application and sanding properties that can be expected from a Sikkens product.

Autosurfacers Rapid provides:

- Extremely fast dry to sand times of
 - 45 minutes at 70°F (20°C)
 - 20 minutes at 140°F (60°C)
 - 6 minutes with short wave IR
- Short flash times of 3-5 minutes between coats and only 1-3 minutes before drying
- Superior sand ability

Item Number	Description	Size
391612	Sikkens Autosurfacers Rapid Light Grey	3 Lt
391613	Sikkens Autosurfacers Rapid Dark Grey	3 Lt
391614	Sikkens Autosurfacers Rapid Hardener	1 Lt
